DETAILED ACTION

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The error is not recited well enough. At least one instance of the equations(s) missing from the specification must be specifically recited. Broadly stating "missing equations" is not specific enough. It should recite: The error is that the following equation... is missing at column..., line...

The reissue oath/declaration filed with this application is also defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

A supplemental declaration for the changes made after the initial declaration is missing.

The residence is the city or town and state where applicant resides.

Claim 1 is rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

Specification

No substitute specifications are permitted in a Reissue 37 CFR 1.125(d) MPEP 608.01 (q). Each paragraph that is being amended must be provided as per MPEP 1453(I).

Art Unit: 3663

The amendments to the specification are not meeting rule 1.173. A review of the amendments in the substitute specification and a comparison to the original patent specification reveals that bracketing and underlining does not comply with 37 CFR 1.173. Each and every change made must comply with this rule.

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 571 272 6981.
